INSTRUCTIONS

Complete this after each cohort finishes Stage Seven, while the sub-sessions are still fresh.

Given this stage's length (13 sub-sessions), consider completing this incrementally after each section rather than waiting until the very end, when early sub-sessions may be harder to recall clearly.

Facilitator name: _____ Cohort / dates: _____

Section-by-Section Ratings

For each section, rate overall engagement (1-5) and flag anything that ran significantly over or under time across its sub-sessions.

Scale & Pacing

Did the thirteen-sub-session structure genuinely work for your cohort's schedule, or would a different split (e.g., combining some A/B sub-sessions) have worked better?

Did participants show visible fatigue or disengagement by the later sections? If so, where specifically?

Did the continuity approach (one real dataset/project/portfolio carried across sub-sessions) genuinely work, or did participants struggle to maintain it?

Which Activities Landed?

Which single FIRST produced the most genuine, energized engagement this cohort?

Which single FIRST fell flattest or felt rushed given the compact facilitator guide format?

Did any of the twelve group-adapted exercises feel forced rather than genuinely additive?

Content & Materials

Did you encounter any content errors or inconsistencies across the Manual, both Templates workbooks, or facilitator materials?

Was the pre-work genuinely followed, especially bringing the right devices and tool access for Sections 3-5?

Format (In-Person / Online / Hybrid)

Which format did you run this cohort in?

Did the Adaptation Notes cover the technical and collaborative activities adequately?

Open Feedback

What's one specific change you'd make to Stage Seven's structure, content, or materials before the next cohort?

Anything else worth flagging, especially given this stage's unusual scale?
