FIRSTS

COMPLETION CRITERIA

What counts as done, and how it triggers the Stage Four credential

A Citrus Edition Facilitator Resource • Companion to the FIRSTS Manual

FIRSTS • Completion Criteria & Credential Trigger

Stage Four • Mindset, Productivity & Habits

PURPOSE

This document defines exactly what “complete” means for Stage Four, at both the individual FIRST level and the full-stage level. Because many of this stage's FIRSTS establish ongoing habits rather than one-time deliverables, completion here is defined by genuine first use, not just a written plan.

Per-FIRST Standard

STANDARD

A FIRST counts as complete when the corresponding Templates worksheet has a genuine, specific answer in every required field, and for FIRSTS that establish an ongoing practice (E1–E3, E6, E9–E14, E16, E18–E20), when the participant has genuinely run the practice at least once during the session, not just described it hypothetically.

Stage-Level Completion Checklist

- All 25 Templates worksheets completed with genuine, specific answers (see per-FIRST standard above).
- Attendance or async completion confirmed for all 3 sessions.
- A real, named Accountability Partner (FIRST E12) confirmed with actual contact information exchanged, not just a hypothetical name.
- One Extra Edge FIRST (F1–F5) genuinely underway, not just planned — e.g., a side project actually started, a certification actually registered for, a volunteer organization actually contacted.
- One specific system commitment named at the stage close.

Facilitator Sign-Off

The facilitator reviews each participant's completed Templates workbook and confirms the Accountability Partner and Extra Edge FIRST were genuinely acted on, not just documented as intentions, before marking the stage complete in the program tracker.

Credential Trigger

HOW THE BADGE WORKS

Upon facilitator sign-off, the participant's record is marked “Stage Four Complete” in the program tracker, which triggers the Stage Four digital badge. As with every stage, badges accumulate visibly; the full-program certificate is issued only once all 16 stages are marked complete.
