FIRSTS • Completion Criteria & Credential Trigger

Stage Sixteen • Workplace Professionalism & Workplace Readiness / Professional Ethics & Integrity

PURPOSE

This document defines exactly what “complete” means for Stage Sixteen, at both the individual FIRST level and the full-stage level, and how completion connects to the program's credentialing system. As the final stage in the numbered sequence, its completion also has a special role: triggering the check for the full-program certificate across all sixteen stages.

Per-FIRST Standard

STANDARD

A FIRST counts as complete when the corresponding Templates worksheet has a genuine, specific answer in every required field, and for FIRSTS involving a real external action (T22's reputation conversation, T34's honesty challenge, T42's speak-up channel check), when that action has genuinely been taken or verified, not just planned.

Stage-Level Completion Checklist

- All 45 Templates worksheets completed with genuine, specific answers (see per-FIRST standard above).
- Attendance or async completion confirmed for all 5 sessions.
- The real external action for FIRST T22 (Professional Reputation Audit) confirmed by self-report.
- A genuine, honest full-stage reflection completed for FIRST T45, covering both the workplace professionalism and ethics halves, not just the most recent section.

Facilitator Sign-Off

The facilitator reviews each participant's completed Templates workbook and confirms, through brief self-report, that the real external actions in this stage were genuinely taken. Given the personal and sometimes sensitive nature of the ethics material in Sections 4 and 5, verification here relies more on honest self-report than direct observation — spot-check written reflections for genuine specificity rather than requiring proof of private ethical choices.

Credential Trigger

HOW THE BADGE WORKS

Upon facilitator sign-off, the participant's record is marked "Stage Sixteen Complete" in the program tracker, which triggers the Stage Sixteen digital badge. As this is the final stage in the numbered sequence, completion also triggers a check of all 16 stages for the full-program certificate.
