Which Activities Landed?

Which single FIRST produced the most genuine, energized discussion this cohort? Why do you think that was?

Which single FIRST fell flattest or felt rushed? What would you change about it?

Did Session 3's length (the hands-on building session) work as a single sitting, or should it be split for future cohorts?

Did any of the group-adapted exercises (Group Versions of Key Exercises document) feel forced rather than genuinely additive? Which ones?

Sensitive Moments

Did any participant have a genuinely difficult reaction to the Digital Footprint Audit (B16) or reputation feedback (B9)? How was it handled, and would you handle it differently next time?

Did the video recording exercises (B26, B27) produce real visible discomfort in the room? Did the framing in this script help?

Content & Materials

Did you encounter any content errors or inconsistencies in the Manual, Templates, or facilitator materials?

Was the pre-work handout genuinely followed by most participants, especially bringing laptops/logins for Session 3?

Were the FAQ's anticipated questions the ones participants actually asked? What question came up that isn't currently in the FAQ?

Format (In-Person / Online / Hybrid)

Which format did you run this cohort in?

Did the Adaptation Notes cover what you actually needed, especially for the headshot and hands-on building activities?

Open Feedback

What's one specific change you'd make to Stage Two's structure, content, or materials before the next cohort?

Anything else worth flagging?
