

STAGE ONE • SELF-AWARENESS & CAREER CLARITY

FIRSTS

SESSION PLAN

Three sessions, mapped and timed, to run all 18 FIRSTS as a live workshop

A Citrus Edition Facilitator Resource • Companion to the FIRSTS Manual

BY AYOMIDE AYENI

FIRSTS • Session Plan

Stage One • Self-Awareness & Career Clarity

OVERVIEW

Stage One's 18 FIRSTS are split across three roughly 90-minute sessions, grouped thematically so each session builds on the one before it. Each session pairs a short facilitator-led framing (using the companion Facilitator Guide) with independent or paired worksheet time in the Templates workbook, followed by a group share-out.

These timings assume a cohort of 8-15 participants. For smaller groups, share-outs run faster and sessions can compress by roughly 10-15 minutes; for larger groups (20+), consider breakout groups of 4-5 for the share-out portion rather than a single full-group round.

AT A GLANCE

Time	Segment	Format
Session 1	Foundations of Self — FIRSTS 01-06	~100 min
Session 2	Aligning with the Market — FIRSTS 07-12	~105 min
Session 3	Working Style & Systems — FIRSTS 13-18	~90 min + 1 week of independent tracking

SESSION 1

Foundations of Self

Covers FIRSTS 01-06: Core Values Audit, Career Vision, Personal Purpose Awareness, Personal Brand Narrative, Strength Inventory, Weakness Awareness.

PRE-WORK

- Ask participants to bring one recent decision (accepting/declining an offer, choosing a class, a personal choice) they can reference during the Core Values Audit discussion.

SESSION AGENDA

Time	Segment	Format
0:00-0:10	Welcome + why Stage One starts with self-awareness before market research	Full group
0:10-0:30	FIRST 01 — Core Values Audit: framing + independent work	Solo, then pairs share one value
0:30-0:50	FIRST 02 — Career Vision: framing + Future Self Letter drafting	Solo
0:50-1:10	FIRST 03 — Personal Purpose Awareness: framing + reflection prompts	Solo
1:10-1:15	Short break	—
1:15-1:40	FIRSTS 04-05 — Personal Brand Narrative + Strength Inventory	Solo, then pairs practice narrative aloud
1:40-2:00	FIRST 06 — Weakness Awareness + session close	Solo, then full-group closing share (optional, opt-in only)

FACILITATOR NOTES

- FIRST 06 (Weakness Awareness) can surface real vulnerability. Make the closing share explicitly opt-in — never call on someone to share a weakness.
- If running short on time, FIRSTS 04 and 05 combine naturally since the brand narrative draws directly on the strength inventory — consider having participants build the strength map first, then draft the narrative from it in the same block.
- Close by explicitly naming that Session 2 will build directly on today's values and strengths work, not start fresh.

SESSION 2

Aligning with the Market

Covers FIRSTS 07–12: Passion Alignment, Industry Insight, Career Path, Role Research, Salary Benchmarking, Career SWOT Analysis.

PRE-WORK

- Ask participants to identify one target industry or role family before the session, even a tentative guess — this session goes much better with something concrete to research against.
- If your cohort has internet access limitations, pre-load or print 2–3 sample job postings per common target role as a backup for FIRST 10.

SESSION AGENDA

Time	Segment	Format
0:00–0:10	Welcome + bridge from Session 1 (values/strengths) into market alignment	Full group
0:10–0:30	FIRST 07 — Passion Alignment: framing + mapping table	Solo
0:30–0:50	FIRST 08 — Industry Insight: framing + one-page brief (independent research)	Solo, laptops/phones needed
0:50–1:15	FIRST 09 — Career Path: framing + role family mapping + LinkedIn scan	Solo, laptops needed
1:15–1:20	Short break	—
1:20–1:45	FIRST 10 — Role Research: Role Fit Map for one target role	Solo or pairs
1:45–2:00	FIRST 11 — Salary Benchmarking: quick research + target range	Solo
2:00–2:15	FIRST 12 — Career SWOT Analysis + session close	Solo, then full-group share of one 90-day priority

FACILITATOR NOTES

- This session is research-heavy and needs internet access — confirm connectivity or have printed backups ready before starting.
- FIRSTS 08 and 09 are the most time-flexible; if the group is engaged and researching deeply, let those run long and trim FIRST 11 (Salary Benchmarking) to a faster, more directive walkthrough if needed.
- The Career SWOT Analysis closing share works well as a full-group round since it's just one sentence per person (the 90-day priority) — this builds real peer accountability heading into Session 3.

SESSION 3

Working Style & Systems

Covers FIRSTS 13–18: Skill Growth Plan, Personality Assessment, Work Style Awareness, Thinking & Decision-Making Style, Learning Style Awareness, Productivity & Focus System.

PRE-WORK

- Send participants a link to a free personality assessment (16Personalities or similar) to complete before the session, so FIRST 14 can start from a completed result rather than using session time to take the test.

SESSION AGENDA

Time	Segment	Format
0:00–0:10	Welcome + framing: this session is about how you work, not just what you want	Full group
0:10–0:35	FIRST 13 — Skill Growth Plan (draws on Session 2's SWOT)	Solo
0:35–0:55	FIRST 14 — Personality Assessment reflection (assessment completed as pre-work)	Solo, then pairs compare results
0:55–1:10	FIRST 15 — Work Style Awareness: framing + launch the week-long tracking log	Solo (independent tracking continues after session)
1:10–1:15	Short break	—
1:15–1:35	FIRST 16 — Thinking & Decision-Making Style	Solo
1:35–1:50	FIRST 17 — Learning Style Awareness: framing + launch the three-day method test	Solo (independent testing continues after session)
1:50–2:10	FIRST 18 — Productivity & Focus System + stage close	Solo, then full-group close: one system commitment per person

FACILITATOR NOTES

- Two FIRSTS in this session (15 and 17) run over multiple days by design — schedule a short follow-up check-in (15–20 minutes, async or live) about a week later to close the loop on both.
- Use the companion Facilitator Guide's content for FIRST 18, not the current manual text — see the flagged note in that document.
- Close the full stage by having each participant name one specific system or habit they're committing to, out loud or in a shared doc — this is a natural moment to also preview what Stage Two covers next.
