INSTRUCTIONS

Complete this after each cohort finishes Stage Eleven, while the sessions are still fresh. Takes about 10–15 minutes given this stage's hands-on, technical content. This feedback directly shapes revisions to the Manual, Templates, and all facilitator resources for future cohorts.

Facilitator name: _____ Cohort / dates: _____

Session-by-Session Ratings

For each session, rate overall engagement (1-5) and flag anything that ran significantly over or under time.

Session 1 — Core Productivity & Office Tools	Engagement (1-5): ____	Ran over/under on: _____
Session 2 — Personal Systems & Technical Foundations	Engagement (1-5): ____	Ran over/under on: _____
Session 3 — Advanced Tools, Automation & Optimization	Engagement (1-5): ____	Ran over/under on: _____

Which Activities Landed?

Which single FIRST produced the most genuine, energized engagement this cohort? Why do you think that was?

Which single FIRST fell flattest or felt rushed? What would you change about it?

Did technical setup issues (accounts, installations, permissions) meaningfully eat into session time despite the pre-work? Where specifically?

Technical & Confidence Moments

Did any participant express real embarrassment or intimidation about a perceived tool gap? How was it handled, and would you handle it differently next time?

Did FIRST O16 (Git) or O23 (Workflow Automation) genuinely work for most participants, or did technical friction dominate the time?

Content & Materials

Did you encounter any content errors or inconsistencies in the Manual, Templates, or facilitator materials?

Was the pre-work handout genuinely followed, especially account creation for GitHub and AI tools?

Format (In-Person / Online / Hybrid)

Which format did you run this cohort in?

Did the Adaptation Notes cover what you actually needed for the hands-on, screen-sharing-heavy activities?

Open Feedback

What's one specific change you'd make to Stage Eleven's structure, content, or materials before the next cohort?

Anything else worth flagging?
